Business *Challenges* & Insights

Understanding Anita's Veg Cafe: Unlocking growth through data-driven decisions

 Data Analysis

 Restaurant Case

Core Business Challenges

Understanding what drives Anita's Veg Cafe success

01

Customer Value

Who are the most valuable customers?
How much do they spend and how often do they visit?

↗ Revenue Growth

02

Menu Preferences

Which dishes are customer favorites?
What do they order first and what keeps them coming back?

★ Menu Optimization

03

Loyalty Impact

Does the loyalty program change behavior? What happens before and after joining?

💡 Customer Retention

📌 CHALLENGE 01

Customer Value

KEY QUESTION 1

Who are our highest spending customers?

KEY QUESTION 2

How frequently do they visit the café?

Why It Matters

Identifying VIP customers enables targeted promotions and personalized retention strategies.

CUSTOMER VALUE MATRIX

🔪 CHALLENGE 02

Menu Preferences

KEY QUESTION 1

Which dish is the most popular overall?

KEY QUESTION 2

What is each customer's favorite dish?

KEY QUESTION 3

What do customers order first?

POPULARITY RANKING

#1

Paneer Butter Masala

Rich & creamy, always in demand

#2

Veg Biryani

Perfect for sharing

#3

Masala Dosa

All-day classic

💡 Why It Matters

Understanding preferences helps optimize inventory, reduce waste, and design promotions that drive sales.

CHALLENGE 03

Loyalty Impact

KEY QUESTION 1

Do customers spend more after joining the loyalty program?

KEY QUESTION 2

Do they visit the café more frequently?

KEY QUESTION 3

What did they order before vs. after joining?

BEHAVIORAL SHIFT ANALYSIS

AVERAGE SPEND

₹320 /month

Before Joining

VS

AVERAGE SPEND

₹480 /month

↗ +50%

VISIT FREQUENCY

2.1 times/month

VS

VISIT FREQUENCY

3.8 times/month

↗ +81%

💡 Why It Matters

Measuring loyalty program effectiveness helps justify investment and optimize reward structures to maximize customer retention and lifetime value.

CHALLENGE 04

Reward Strategy

KEY QUESTION 1

How to allocate points fairly across different menu items?

KEY QUESTION 2

Should premium dishes like Paneer earn more points?

KEY QUESTION 3

How to use promotions like "Double Points Week"?

POINTS SYSTEM DESIGN

Standard Earning

Base rate for regular menu items

10
PTS/₹1

Premium Bonus

Double points for signature dishes

20
PTS/₹1

First Week Bonus

2x points for new members

2X
PTS

Why It Matters

A well-designed reward system encourages high-margin purchases and boosts retention without eroding profitability.

↑ SUMMARY

Growth Opportunities

Understanding these business challenges unlocks strategic insights that drive revenue and customer satisfaction.

GROWTH DASHBOARD

Targeted Promotions

Identify VIP customers for personalized offers and retention strategies

Menu Optimization

Focus on best-sellers, reduce waste, and introduce complementary dishes

Loyalty Enhancement

Measure program ROI and refine strategies to boost member engagement

Smart Rewards

Design points system that encourages high-margin purchases and frequent visits
